

Notice of Log4j Vulnerabilities

Release Date: 01/06/2022

Advisory ID: GV-SFW-2022-01

CVE ID: CVE-2021-44228, CVE-2021-45046

Status: Completed

GeoVision's Official Notice:

Regarding the Apache Foundation Log4j Vulnerability (CVE-2021-44228) and Log4j version 2.15.0 Vulnerability (CVE-2021-45046)

Recently GeoVision is aware of publicly-reported vulnerabilities regarding an open-source Java logging library developed by the Apache Foundation called Log4j (CVE-2021-44228) and Log4j version 2.15.0 (CVE-2021-45046)

Our R&D team has launched investigations and run analysis upon receiving above information, which is concluded as below:

GeoVision's latest version of Software, Firmware, Mobile App and Hardware products, listed in the [table](#), are not affected by those vulnerabilities.

We encourage customers to update your products to the latest version and will keep you informed of further developments if there are any changes.

If you have further questions, please feel free to contact us.
